DETAILED ACTION

Notice To Applicant

1. This communication is in response to the amendment filed on 4/20/07. Claims 1-21 and 23 have been cancelled. Claim 22 is pending.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over *Baldwin* (Baldwin, Ben G. "The New Life Insurance Investment Advisor" Copyright 1994.

 McGraw-Hill. pp. 45-47.), in view of *Banks* (5,913,198; hereinafter *Banks*).
- (A) As per currently amended claim 22, *Baldwin* discloses a <u>computer-implemented</u> method for <u>managing terms and conditions of a contract governing</u> an investment style life insurance policy <u>for</u> an insured over a computer network, <u>the investment style life</u>

Application/Control Number: 09/849,297 Page 3

Art Unit: 3626

insurance policy including at least a term insurance component and an investment component, the method comprising:

(1) receiving by an issuer of the investment style life insurance policy designation of the term insurance component or the investment component by the insured (*Baldwin*: pg. 45-47);

- (2) issuing by the issuer the investment style life insurance policy (*Baldwin*: pg. 45-47); and
- (3) <u>issuing under the terms and conditions of the contract and</u> by the issuer <u>the investment style life insurance policy to</u> the insured (*Baldwin*: pg. 45-47).

Baldwin, however, fails to expressly disclose a method for issuing an investment style life insurance policy to an insured over a computer network comprising:

- (4) receiving, transmitting, and issuing insurance information via a computer network;
- (5) <u>designation of a replacement for the term insurance component or the investment component;</u>
- (6) revising insurance policy with a replacement component responsively to the designation; and

Art Unit: 3626

(7) the revised investment style life insurance policy having the replacement component.

Nevertheless, these features are old and well known in the art, as evidenced by *Banks*. In particular, *Banks* discloses a method for issuing an investment style life insurance policy to an insured over a computer network comprising:

- (4) receiving, transmitting, and issuing insurance information via a computer network (*Banks*: abstract; Fig. 1);
- (5) <u>designation of a replacement for the term insurance component or the investment component</u> (*Banks*: col. 5, lines 57-60);
- (6) revising insurance policy with a replacement component responsively to the designation (Banks: col. 5, lines 57-60); and
- (7) the revised investment style life insurance policy having the replacement component (Banks: col. 5, lines 57-60).

One of ordinary skill in the art would have found it obvious at the time of the invention to combine the teachings of *Banks* with the teachings of *Baldwin* with the motivation of providing a means for flexibly modifying investment style life insurance policies and mitigating risks and liabilities such as tax (*Banks*: abstract).

Response to Arguments

4. Applicant's arguments with respect to claim 22 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
